

CYBERSECURITY CAMP II

Deep Learning Security Workshop

Co-chairs

Professor Dawn Song, University of California, Berkeley

Dr. Prateek Saxena, National University of Singapore

14 - 15 December 2017

School of Computing

National University of Singapore (NUS)

Research Forum, 14 December 2017

The Research Forum showcases developments at the intersection of deep learning and security. It will feature selected short research talks on emerging hot topics, practical problems encountered by industry practitioners, lessons learned, exciting datasets, or other topics of interest.

Main Workshop, 15 December 2017

The Workshop features invited speakers from prominent deep learning research centers around the globe.

- Ian Fischer (Google Research)
- John Whaley (UnifyID)
- Le Song (Georgia Institute of Technology / Ant Financial)
- Liang Shi, Min Ye, Tianlong Liu (Alibaba Cloud Security)
- Reza Shokri (National University of Singapore)

Registration Fees

Delegate	Fees
Full-time Local or International Students	
Staff at Singapore Educational/Research Institutions	SGD 80.00
Staff at Singapore Government Agencies	
Others	SGD 150.00
