
Cybercrime Landscape

Phoram Mehta

Head of Info Security, Asia-Pacific, PayPal

President, ISACA Singapore Chapter Board

ABSTRACT

While jobs across the world are being disrupted through innovation in automation technologies, Cybersecurity is one of the few fields where the shortage of skilled workers doesn't seem to subside. To present a comprehensive understanding of the Cybersecurity industry through the lens of those who define it—the practitioners, this talk will cover the Cybercrime landscape from his role at PayPal. In addition, ISACA, where Mr. Mehta is the President of the Singapore chapter is conducting research and sharing the results in a series of white papers that focus on individual survey topics. The first in the series called State of Cybersecurity 2018 highlights workforce development and current trends. This talk will cover the findings of the survey in detail and share specific strategies for training, upskilling and hiring in Banking and Financial Services sector.

SPEAKER BIOGRAPHY

Mr. Mehta serves on the ISACA Singapore Chapter board as President. A seasoned professional and technical leader with almost two decades in infosec, Mr. Mehta has been instrumental in building secure technology solutions for multiple companies across a spectrum of sectors including financial services, healthcare, telecommunication, and government in North America and Asia-Pacific regions.

Mr. Mehta works at PayPal, as the Head of Info Security for Asia-Pacific region.
