

Hans Brown

Head of International Technology
Asia Pacific & Latin America
BNY Mellon

Address:

One Temasek Avenue
#07-01 Millenia Tower
Singapore – 039192

Hans is the Head of International Technology for BNY Mellon responsible for leading technology innovation and delivery in Asia Pacific and Latin America.

Hans has a wealth of experience in enabling organisational cultural change and rapidly delivering technology solutions in the financial services, telecoms and consumer electronic industries, to reduce both operational risk and expense and simultaneously enable the creation of new revenue streams.

He is a member of the Global BNY Mellon Technology Operating Council, a regional co-chair of the BNY Mellon Women's Initiative Network as well as a member of the BNY Mellon Asia Pacific Leadership Council. Hans is also a BNY Mellon representative on the Asia Securities Industry & Financial Markets Association (ASIFMA) Fintech Working group and has an active interest in technology evolution and trends as well as the rise of Fintech's and API's in financial markets.

Hans has a Master of Science in International Technology Management from the University of Warwick in the UK as well as a Master of Engineering in Civil and Structural Engineering from the University of Liverpool. He has been a keynote speaker at multiple corporate and industry events on technology evolution and trends as well as the rise of Fintech's and APIs in financial markets. He was a key contributor to the *ABS-MAS Financial World: Finance As A Service API Playbook* published by the Monetary Authority of Singapore.
